SUMMARY

Enthusiastic and driven Full Stack Developer with a strong foundation in frontend technologies like HTML, CSS, JavaScript, React.js, and Next.js, along with backend tools such as Node.js, Express.js, and MongoDB. Passionate about building responsive, user-friendly web applications with a focus on performance, accessibility, and seamless user experience. Currently exploring Prompt Engineering to integrate intelligent, innovative features into modern web projects. Actively preparing to launch a personal website development agency to deliver full-stack solutions to clients. Eager to continuously learn, collaborate on real-world projects, and contribute to meaningful digital experiences.

WORK

Frontend Developer – Freelance Projects.
